

Air Condition Disinfectant

Product properties

Reliably eliminates all bacteria and micro organisms from the ventilation ducts in the air conditioning unit and provides fresh and clean air.

Area of application

Air-conditioning cleaner has been especially developed for the quick and uncomplicated disinfection of room air-conditioning systems in hotels, airports, industrial buildings and clinics.

Application

Switch off the air conditioning unit before disinfection. Shake the can well before use. spray the disinfectant into the air vent ducts from a distance of approx. 10 cm. For disinfecting and refreshing the room climate, occasionally spray the disinfectant in short blasts throughout the air-conditioned room. Recommended to be used two times in month.

DANGER

Use biocides safely.

Always read the label and product information before use.

Contains: 0.5 g / 100 g of N-alkyl (C12-16) -N, N-dimethyl-N-benzylammonium chloride

Reg. No. : N- 54888

Hazard statements

Extremely flammable aerosol. Pressurised container: May burst if heated.

Dispose of this material and its container to hazardous or special waste collection point.

Consumption

250 ml for 1 application

Reaction time

approx. 1 minute

Technical data

Physical state: aerosol

Colour: clear/colourless

Odour: Parfum

pH-Value (at 68 °F): 10,5

Melting point: 0 °C

Initial boiling point and boiling range: 100 °C

Flashpoint: > 100 °C

Vapour pressure (at 68 °F): < 12 hPa

Density at 68 °F: 1,00 - 1,01 g/cm³

Water soluble

Available sizes	Item no.	PU
