

# Throttle Body Cleaner

## Product properties

High Performance formulation for effective and materialprotective cleaning of throttle body. Quickly and effectively removes oil and grease deposits from the surfaces within seconds. The product greatly improves the operating characteristics of the treated section and therefore reduces the fuel consumption and provides a stable idling.

## Area of application

Cleaning of throttle bodies and valves etc.

## Application

Shake well before use. Spray evenly onto the parts to be treated and allow taking effect for a few seconds.

## Consumption

Depended on contamination

## Reaction time

approx. 30-60 seconds

## Technical data

Physical state: aerosol

Colour: clear/colourless

Odour: aromatic

Initial boiling point and boiling range: <0 °C

Ignition temperature: > 200 °C

Density at 68 °F: 0,742 g/cm<sup>3</sup>

Water soluble

Solvent content: 97,6 %

Available size	Item no.	PU
500ml	37012	12
